

Supplying businesses with effective fuel management systems and solutions.

Sapphire Litefueller Product Specification Sheet

Introducing the cost effective, entry level Fuel Management terminal.

Combined with the reliability and accuracy of the Litefueller commercial pump, the Sapphire Litefueller is the complete entry level Fuel Management solution in one unit, Security, Control and Online Centralised Reporting.

The MCS Sapphire Litefueller is a commercial, entry level heavy duty fuel pump. It offers excellent performance and reliability for a cost effective solution.

Litefueller brings quality and high level accuracy to the low cost pump market.

Features & Benefits:

Track every litre of fuel or fluid dispensed with the Sapphire Lite terminal, the next generation of entry level Fuel Management terminals, utilising Contactless technology for secure and controlled fuelling.

The Lite solution provides cost effective Fuel Management with vehicle/driver and stock reporting via the secure MCS Connect website.

Our MCS Connect website is a money saving business tool providing user friendly reporting and reconciliation.

Access MCS Connect from any web enabled PC, tablet or smartphone eliminating the requirement for software installed on only one PC. Unlimited users have access to the MCS Connect website and complete control of who can access and modify transaction and stock data.

Pump specification:

- Heavy duty, wall mounted box pump
- Available in 60, 80 or 100 L/min flow rates
- Lockable enclosure
- High specification electronic meter with $\pm 1\%$ accuracy
- 6 digit display
- Stop/start/override facility
- Resettable period totaliser
- Pulsed output
- Automatic calibration
- Complete with 4.0m delivery hose and premium auto nozzle
- Robust die cast aluminium nozzle holster c/w heavy duty micro switch

Pump options:

- External emergency stop push button
- External non-resettable 7 digit totaliser
- Pedestal mount
- Low level alarm
- Resettable batch counter
- Water and particulate filter
